**GUARDIAN ADDS SENIOR SCIENTIST TO STAFF**

Cocoa, FL, March 10, 2008 – Guardian Manufacturing is pleased to announce Thoram Charanda, Senior Scientist of Mount Dora Florida, has accepted a new position with our company. Thoram will head up Guardian's Research & Development Department focusing on new products and applications beginning April 14, 2008. Thoram has spent the last 18 years managing projects including all chemistry related maintenance for life support systems at a prominent Orlando Theme Park. Guardian Manufacturing has finished construction on a new facility on Oxbow Circle next door to our existing building. The building is an additional 25,000 square feet for office, engineering and manufacturing and should help us keep pace with the growing demand of our customers. Thoram's experience includes:

- Instrumentation: Ion Chromatography, High Pressure Liquid Chromatography, Gas Chromatograph-Mass Spectrometry, Gas Chromatograph-FID, Total Organic Carbon Analyzer, UV-Vis Spectrophotometer, Coulter Particle Analyzer
- Wet bench chemistry
- Analytical Methods Development
- Aquatic chemistry computer modeling
- AutoCAD 14, Table Curve 2D and 3D (experimental data fitting software), Dionex Chromelion control and data processing software
- Dionex Training Seminars: IC Method Development, Transition Metal Analysis, Environmental Sample Analysis
- American Chemical Society Training Course: Mass Spectrometry Organic Compound Identification Techniques
- Effective Presentations Course at Disney University

- 16 credit hours of graduate level analytical and environmental chemistry courses
- Member of the American Chemical Society
- Member of the American Water Works Association
- Member of the International Ozone Association
