GUARDIAN MANUFACTURING DELIVERS THREE ENSURE-CTS COOLING TOWER SYSTEMS TO THE UNITED SPACE ALLIANCE.

Cocoa, FL, March 18, 2010 – Guardian Manufacturing has recently sold & delivered three **Ensure-CTS™** (Cooling Tower System), 1200 ton ozone systems to the United Space Alliance for use on their engineering buildings in Cape Canaveral, Florida. The three new **Ensure-CTS™** systems replace one aging Diversity cooling tower system that was cost prohibitive to operate according to David Nagel, Engineer at the United Space Alliance.

The systems feature ORP control, onboard booster pumps, and an industry leading 93% ozone gas to water mass transfer efficiency. The systems are schedule to be commissioned shortly.

Ensure-CTS Systems Prior to shipment

ABOUT Guardian Manufacturing – Guardian Manufacturing is a diversified manufacturing and integration company that provides products and solutions for industrial systems integration, food & beverage, agriculture, automotive, laundry,

zoological, aquaculture, home building products, space, entertainment, and pharmaceutical industries. Guardian products include energy efficient ozone laundry systems, water-based ozone antimicrobial treatment systems, gaseous ozone treatment systems, custom vacuum chambers, commercial lighting controls, audio & video panels, EMI filters, hazardous gas monitoring systems, real-time vision systems, and RFID systems for just-in-time, plant automation systems.
