**Guardian Ozone is Currently Exhibiting at the United Fresh 2010 Exposition,
(booth #457) Being Held at the Sands Convention Center in Las Vegas,
Nevada.**

Las Vegas, NV April 21, 2010 – Guardian Ozone is currently exhibiting at the United Fresh Exposition being held in Las Vegas, Nevada. The company has brought both gaseous **Ensure-FS™** (Fumigation System) and aqueous **Ensure-ATS™** (Antimicrobial Treatment System) ozone systems to their booth (#457) for demonstrations of core integration capabilities, ozone technology and food safety application/methods for growers & packers.

Guardian Ozone's **Ensure-FS-400** provides 400 g/hr output with 12 outputs for treating individual cold storage fruit and vegetables rooms.

ABOUT Guardian Manufacturing – Guardian Manufacturing is a diversified manufacturing and integration company that provides products and solutions for industrial systems integration, food & beverage, agriculture, automotive, laundry, zoological, aquaculture, home building products, space, entertainment, and pharmaceutical industries. Guardian products include energy efficient ozone laundry systems, water-based ozone antimicrobial treatment systems, gaseous ozone treatment systems, custom vacuum chambers, commercial lighting controls, audio & video panels, EMI filters, hazardous gas monitoring systems, real-time vision systems, and RFID systems for just-in-time, plant automation systems.

Please visit www.guardianmfg.com for additional information on how to purchase or request a demonstration of Guardian **Ensure** systems.
